

1. You should receive your update in an email that looks similar to the one below. You will only need to download the first link with the new updated instruments.

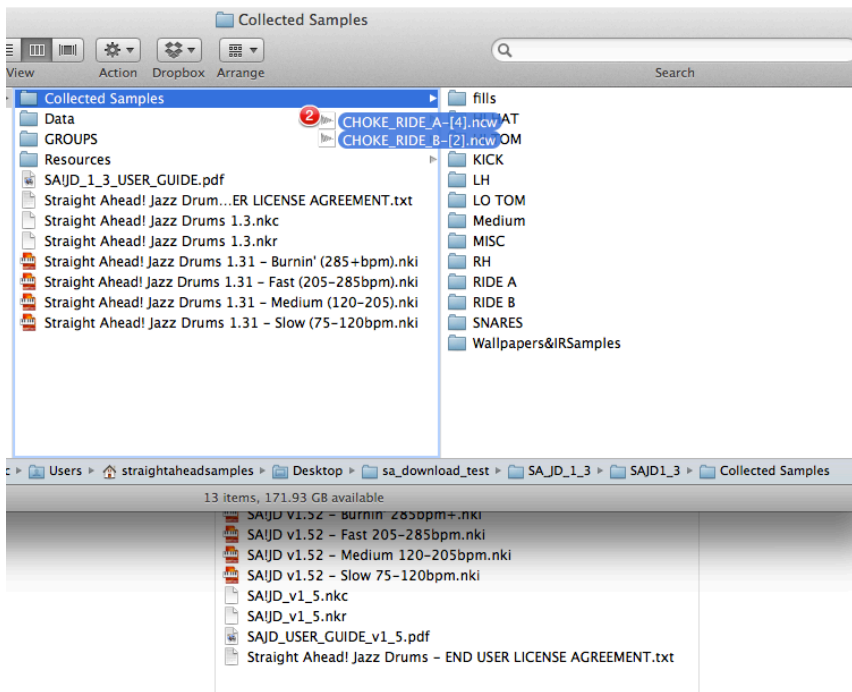

2. You downloaded .zip file contains your new instruments and additional files/doc for SA! Jazz Drums v1.5. It should look like the pic below.

3. Navigate to your original folder containing the old SA:JD 1.3 files.

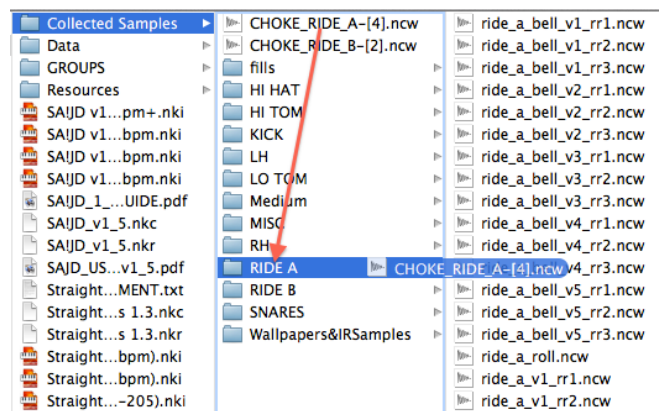

4. Grab the 2 files entitled “CHOKE_RIDE_A-[4].ncw” and “CHOKE_RIDE_B-[2].ncw” and drag them to your old folder entitled “Collected Samples.”

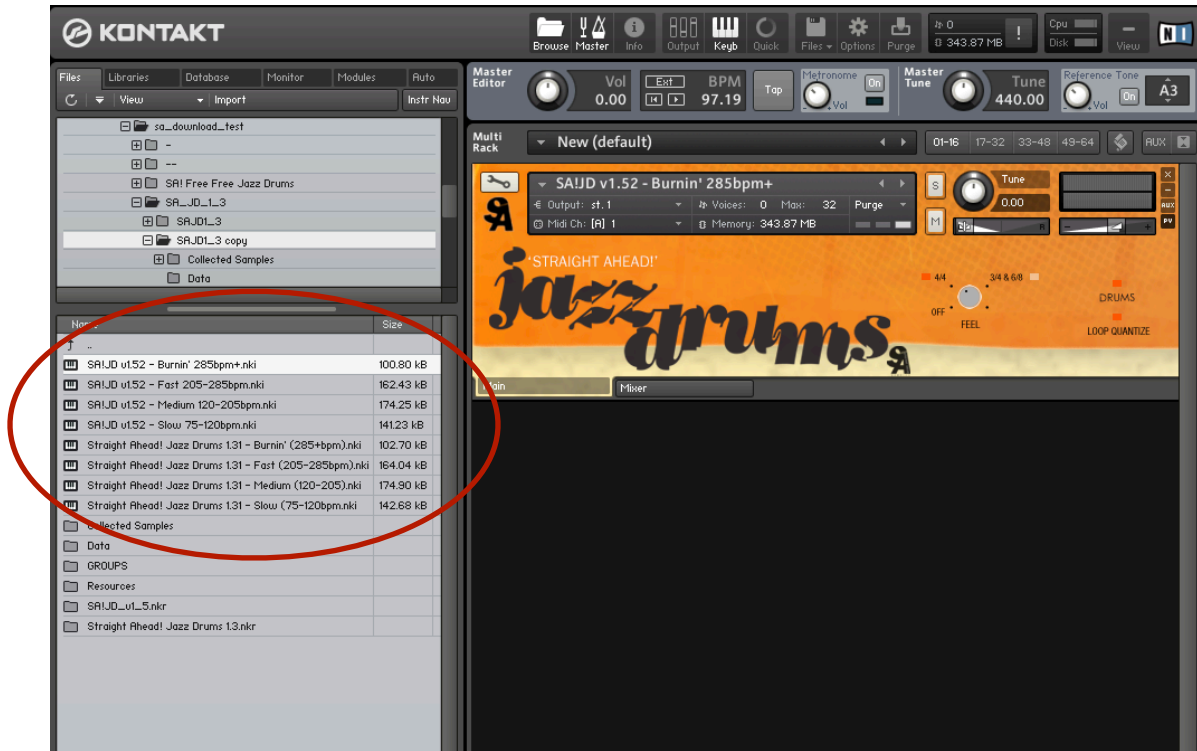

5. Drag “CHOKE_RIDE_A-[4].ncw” into the folder called “RIDE A”

6. Drag “CHOKE_RIDE_B-[2].ncw” into the folder called “RIDE B”

7. Drag the rest of the new files into the old SA!JD1_3 folder. Overwrite any duplicate files.
8. Open Kontakt 5 in standalone or as a plugin in your DAW. Navigate in the Files tab to your SA!B&M folder. Your old instruments as well as your new ones will be in the folder. Load the files with “SA!JD v1.52” in the title. Load the files with “SA!JD v1.52” in the title.

9. For more info check out the pdf entitled “SAJD_USER_GUIDE_v1_5.pdf.” Enjoy!!
