

Straight Ahead! Brushes & Mallets v1.1 Installation Guide

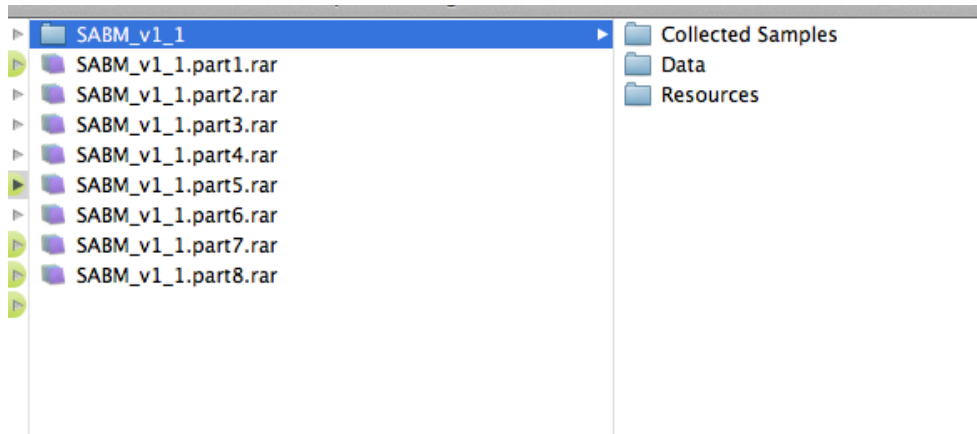

1. After checkout is complete, you will receive an email like this:
2. Since you've already clicked your first file (this guide), please click on and download #2. SABM INSTRUMENTS and **ALL PARTS 1-8 (#4-11) links below "For NEW PURCHASES"** of Straight Ahead! Brushes & Mallets.

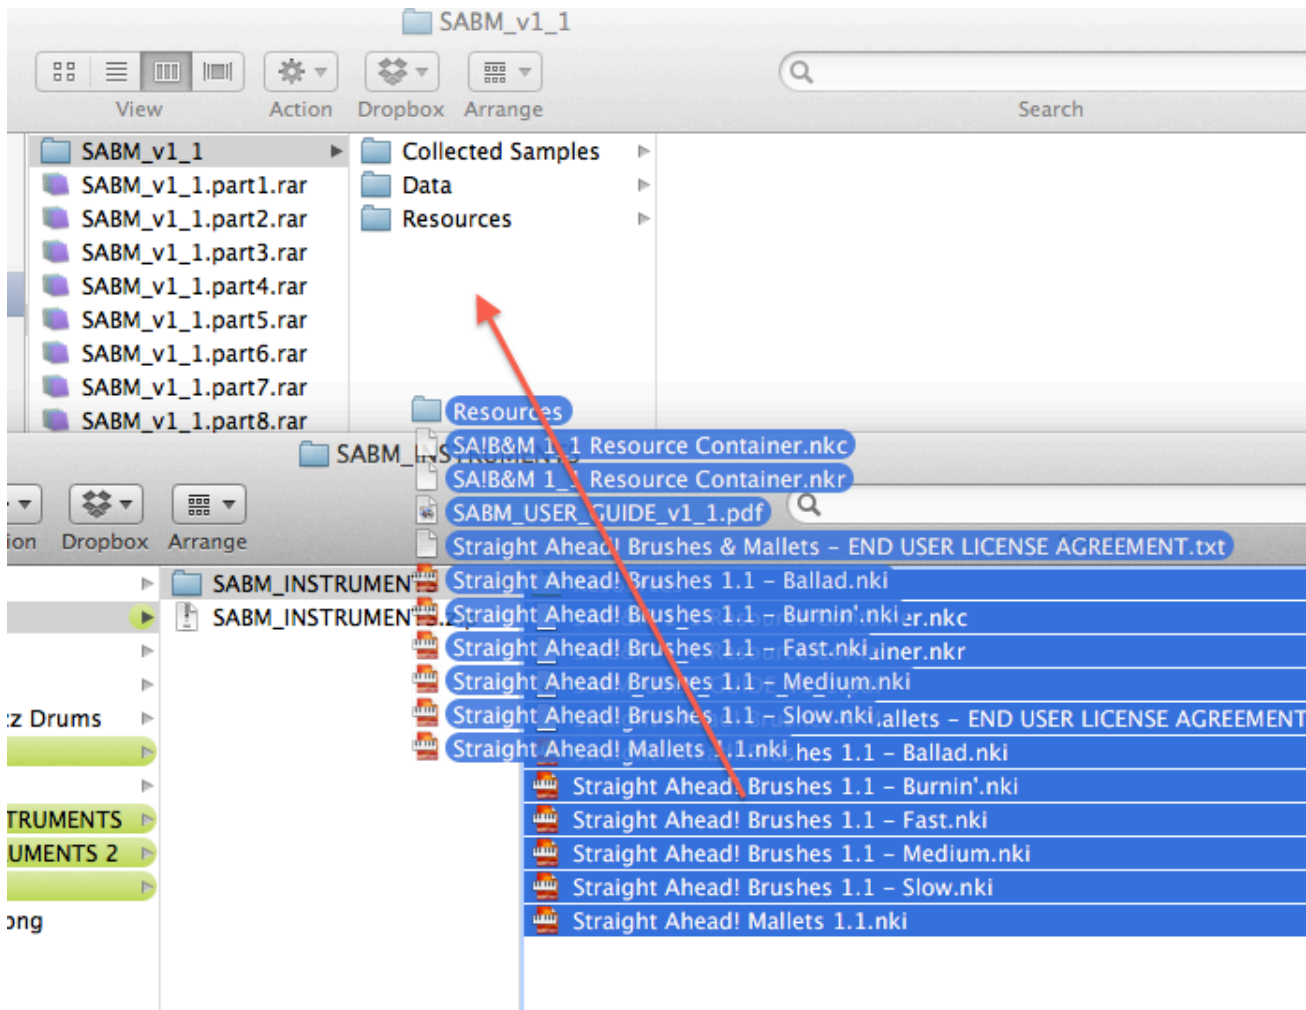

3. First, double-click to unarchive the zip file titled "SABM_INSTRUMENTS.zip" It should extract a folder that looks like this:

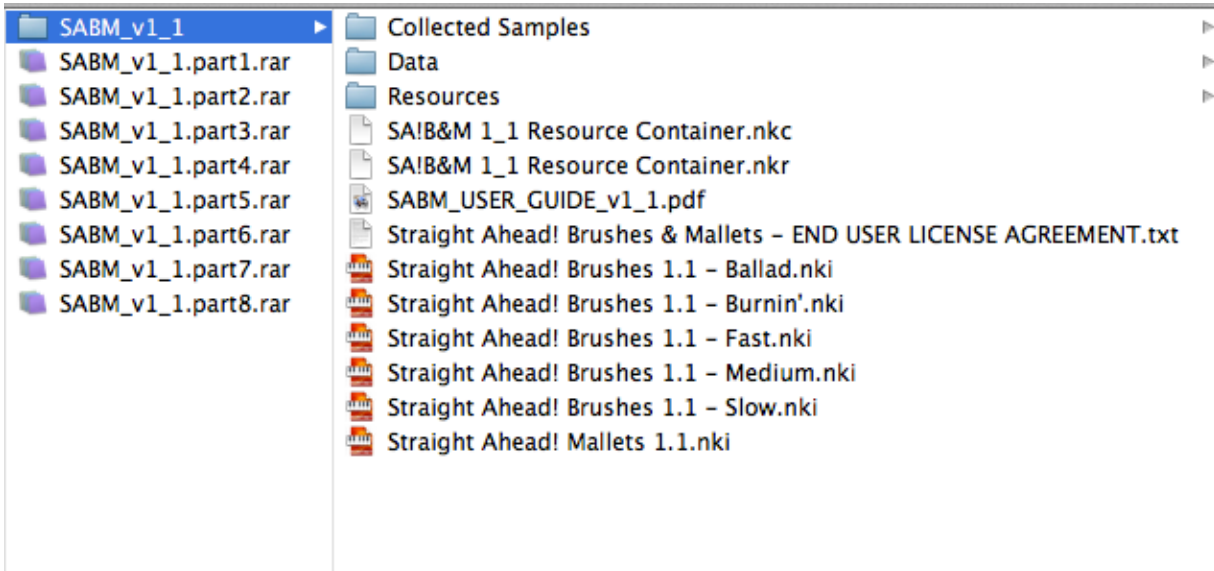

- Next, navigate to your files entitled “**SABM_v1_1.part1.rar, SABM_v1_1.part2.rar...**” Using an unrar utility/program like UnRarX or SimplyRar, click to open **PART 1 ONLY**. The other parts will open automatically. If you receive an error while extracting, that means there was a problem in the download. Your .rar files should have the following sizes: .parts1-7 = 1.02GB .part8 = 523.1mb. If your file’s sizes do not match this, please redownload that part from your original download links.
- After unarchiving completes, a folder will be created that looks like this:

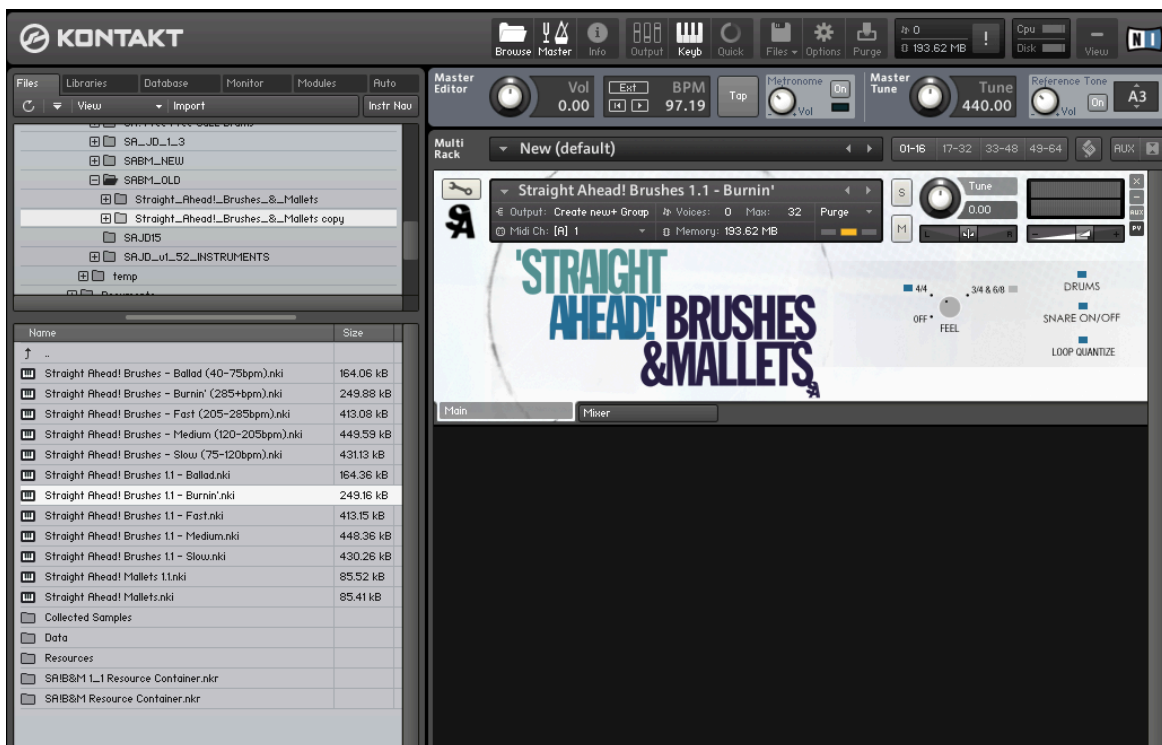

- Grab **the contents** of the new folder called “SABM_INSTRUMENTS” and drag them **into** this new folder called “SABM_v1_1.” Replace any duplicate files if prompted.

7. Your completed folder should look like this:

8. Open an instance of Kontakt 5 and navigate to your newly created folder in the “Files” tab. This library **requires the full version of Kontakt and cannot be added to the “Libraries” tab.**

9. For more info about how to use the library, please reference the pdf in your folder entitled “SABM_USER_GUIDE_v1_1.pdf.” Enjoy!
